Falls are the leading cause of fatalities in the construction industry. Fall fatalities are preventable, but fall prevention standards are among the top ten most frequently cited OSHA standards. This complimentary event will feature the short course, OSHA 7405: Fall Hazard Awareness for the Construction Industry, and an industry expert panel discussion.

OSHA 7405: FALL HAZARD AWARENESS FOR THE CONSTRUCTION INDUSTRY

OSHA 7405 covers the identification, evaluation, prevention and control of fall hazards in the construction industry. This course focuses on falls to a lower level resulting from slips and trips. Course topics include identifying, analyzing, and preventing fall hazards utilizing OSHA Fall Protection Standards.

STAND DOWN FOR WHAT? TO PREVENT FALLS IN CONSTRUCTION! Industry Expert Panel

Don't miss this unique opportunity to hear tips, stories, and innovative ideas from some of the Pacific Northwest's most experienced safety leaders.

Do your Spanish-speaking employees or co-workers need fall protection training? OSHA 7405 will be offered in Spanish for free on May 19, 2017 in Seattle and June 23, 2017 in Portland! Visit osha.washington.edu or call 206-685-3089 for information.
